ABOUT THE GLOBAL CONFERENCE ON SYSTEMS AND ENTERPRISES (GCSE)

The Global Conference on Systems and Enterprises (GCSE) is a niche conference aimed at bringing together Rigor and Relevance at the interface of critical systems and enterprises. It intends to tackle critical systems issues of global importance (with particular emphasis on the Asia Pacific Region) through leveraging synergies between academia, practitioners and decision-makers. During the next 10 years, GCSE conferences will thematically target Critical Infrastructure, Aerospace and Defense, Healthcare Systems, Software Systems and Enterprises, Global Information Networks, Sustainable Cities, Public Systems and Enterprises, Space Systems and Enterprises, Service Systems and Enterprises, and Economic and Financial Systems.

1ST ANNUAL GCSE: CRITICAL INFRASTRUCTURE SYSTEMS AND ENTERPRISES

The theme for the GCSE 2009 conference is Critical Urban Infrastructure Systems. Papers on any aspect of these urban infrastructure systems as well as other Systems and Enterprises are welcome and paper submissions in the following areas are particularly encouraged:

- Resilience and Adaptation in Infrastructure Systems
- Crisis and Emergency Management for Infrastructure Systems
- Interoperable Infrastructure Systems
- Sustainable Infrastructure Systems Design and Management
- Risk-based Design and Management
- Virtual Enterprises and Infrastructure Governance
- Infrastructure Policy and Decision Making
- Infrastructures and Complexity: Self-Organization, Emergence and Leadership for Complex Systems
- Infrastructure System of Systems Architecture
- Infrastructure Analysis and Modeling Methodologies
- Systems and Enterprise Engineering Methodologies, Frameworks and Applications

GCSE 2009 CALL FOR PAPERS

Organizers of the GCSE are issuing a call for papers for presentations at the first annual GCSE conference in Singapore from December 2-4th, 2009. GCSE is one of the only annual conferences focusing exclusively on the convergence of complex large-scale systems and enterprises of critical importance in society.

Submission Instructions

- Submitted papers must not substantially overlap with papers that have been published or that are simultaneously submitted to a journal or a conference with proceedings.
- Papers should be at most 10 pages, using at least 11-point font and reasonable margins on A4 or US letter-size paper (8.5 inch x 11 inch). Committee members are not required to read the appendices, and so submissions should be intelligible without them.
- Each submission should start with the title, abstract, and names and contact information of authors.
- The introduction should give background and summarize the contributions of the paper at a level appropriate for a non-specialist reader.
- Papers must be electronically submitted in PDF or portable PostScript format and must be received by the deadline of July 15, 2009.
- Authors of accepted papers must guarantee that their paper will be presented at the conference.
- Papers should be submitted through the EDAS System <http://edas.info>, choosing the Global Conference for Systems and Enterprises option.
